# *The Grayson*

## *Sweet Impressions*

*Distinctive quoins, decorative gables and a soaring entry create a dramatic yet charming impression for the facade of this fine two-story design.*

*The entry ushers you into a lavish family room, with its cozy fireplace and corner media center. The master suite leaves nothing to be desired.*

*Upstairs, a gracious loft overlooks the family room and opens to a second-story deck, while two additional bedrooms and a bonus room fill out the remaining space.*
