The North Hampton

Luxurious European Design

European touches, including keystone-topped windows and window planter boxes, add to the curb appeal of this lovely design.

The two-story foyer opens to a formal dining room defined by decorative columns; French doors open to a front terrace.

Ahead, a two-story family room is warmed by a fireplace. The nearby kitchen features a breakfast nook, a big island with a cook-top and a walk-in pantry; it adjoins a cozy Keeping Room.

The sumptuous master suite includes a formal bayed sitting room and a private bath with his-and-hers walk-in closets, a corner spa and an oversized shower with a seat.

Upstairs, a balcony hallway overlooks the family room and leads to two bedrooms, each with a private bath and a walk-in closet.
